

DHATCHANA MOORTHY AP

Full Stack Developer | React.js | Node.js | NestJS | TypeScript | SQL

 messageetomoorthi@gmail.com |  +91 7904124990 | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 2+ years of experience building enterprise SaaS applications using React.js, Node.js, NestJS, Express.js, TypeScript, PostgreSQL, and Microsoft SQL Server. Experienced in developing scalable REST APIs, workflow automation systems, dynamic certificate generation, reporting dashboards, RBAC security, and cloud-hosted business applications. Strong expertise in Sequelize ORM, TypeORM, database optimization, and production deployments.

CORE SKILLS

React.js, JavaScript, TypeScript, HTML5, CSS3, Bootstrap, Node.js, Express.js, NestJS, REST APIs, PostgreSQL, SQL Server, MySQL, JWT Authentication, RBAC, Git, GitHub, Azure App Services, Linux, PM2, Postman, PDFMake, Puppeteer

PROFESSIONAL EXPERIENCE

Software Developer | 2024 – Present

- Developed and enhanced Calibmaster, an enterprise Calibration Management SaaS platform.
- Built scalable full-stack modules using React.js, Node.js, Express.js, NestJS, TypeScript, PostgreSQL, and SQL Server.
- Designed and maintained REST APIs for calibration workflows, SRF management, reporting, and instrument lifecycle tracking.
- Implemented dynamic certificate generation supporting customer-specific formats and calculations.
- Developed KPI dashboards, workflow automation, approval processes, and reporting modules.
- Implemented secure role-based access control (RBAC) and authentication mechanisms.
- Supported Azure deployments, production troubleshooting, database optimization, and customer customizations.

KEY PROJECTS

Calibmaster (Enterprise SaaS Platform)

Tech Stack: React.js, Node.js, NestJS, TypeScript, PostgreSQL, SQL Server, Sequelize ORM, TypeORM

Features: Calibration workflow automation, certificate generation, dashboard analytics, instrument lifecycle management, approval workflows, customer management, and laboratory operations.

RFID Document Tracking System – Real-time RFID-based document tracking and monitoring solution.
